# Fill-Air® 1000

Inflatable Packaging System

## The Proven On-Line Void Fill Solution

# Fill-Air® 1000 Packaging System

Package Up To 600 Units-Per-Hour On-Line Or At Multiple Packaging Stations

## Fast, Versatile, On-Demand Packaging

The Fill-Air® 1000 packaging system delivers air-filled cushions for void fill applications as you need them, at a speed of 5 cu. ft. per-minute. One compact 10" wide Fill-Air® roll yields up to 375 cu. ft. of dunnage, eliminating storage bins or bulky containers. That's equivalent to twenty-eight 14 cu. ft. bags of loose fill! Light weight Fill-Air® packaging also reduces freight costs.

## Better for the Environment, and Your Customers

Fill-Air® inflated cushions can be reused, and once deflated, occupy only 1% of their inflated volume. Since there is no messy loose fill or paper, customers receive their goods undamaged in clean, professional-looking packages.

*Fill-Air® packaging is an attractive alternative to messy void fill material.*

## Advanced Features Increase Productivity

The Fill-Air® 1000 system features include:

- **Controlled Inflation Process** maintains a consistent fill-rate in each individual cushion.
- **Advanced Multi-Function Keyboard** allows operator to program frequently-used bag sizes in nine languages.
- **Custom Settings** let the operator change bag sizes without changing film rolls.
- **Patented Sealing Technology** ensures leak proof seals in each cushion, reducing damage returns.
- **Auto-Replenishment** keeps supply bins full so your on-line operation never runs out of Fill-Air® cushions.

## Easy to Learn, Easy to Use

The Fill-Air® 1000 packaging system makes it easy to create dependable, inflated cushions. Simply tear off the desired number of cushions and place them in the carton. The simple process makes training employees effortless.

## Specifications

### Electrical:

115 V~ Single Phase  
7 A 50/60 Hz

### Pneumatic:

100-120 psi 10 CFM

### Weight (without roll):

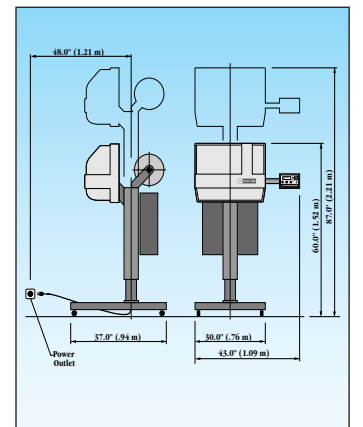

350 lbs. 159 Kg.

### Overall Size (W x D x H):

30.5" x 36.5" x 66.5"  
.78m x .93m x 1.69m

### Film:

FA-200 8" 1,800'  
FA-250 10" 1,800'
